Sustainable Tourism Action Plan: A strategic approach to balancing growth and sustainability

The Sustainable Tourism Action Plan is composed of six complementary Actions designed to guide urban authorities and stakeholders in enabling tourism that is both sustainable and inclusive. From enabling resilience and accessibility, enhancing digital competencies, to addressing unbalanced growth, these Actions create a robust framework. Together, they empower cities to manage tourism growth strategically, promote economic resilience, and safeguard cultural and environmental heritage, ensuring long-term benefits for both residents and visitors.
